DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 8/30/2010 has been entered.

Allowable Subject Matter

2. Claims 4, 19, 20 and 23 are allowed.
3. The following is an examiner's statement of reasons for allowance: Independent claim 4 was amended to require irradiating light to a light intensity changing filter and to change the intensity of the light using the filter. The prior art does not disclose this new limitation in combination with the previously considered claim limitations.

Previously cited Takemoto discloses selectively irradiating with light but does not disclose irradiating through a filter or changing the intensity of the irradiated light using a filter.

Previously cited Hamada also does not disclose irradiating through a filter or changing the intensity of the irradiated light using a filter.

None of the previously cited prior art, alone or in combination, teach irradiating light to a light intensity changing filter and changing the intensity of the light using the

filter. Claims 19, 20 and 23 depend from claim 4, require all of the limitation of claim 4 and are allowable for the same reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
